SHAIL KHANDEKAR

UX Designer / Researcher

About Me

I am a driven and energetic student, currently in my 3rd year who is observant and is able to decode the smallest of users behaviors in the user validation and testing context.

I aim to use the skills I have learnt over the 3 years at college and with online courses, to understand the users context and deliver experiences that enhance efficiency.

Work Experience

HEAD UX DESIGNER - SMI LIVE WEBSITE

Lead design prototyping efforts
Gathered insights to decide on primary user base
Gathered insights to inform design decisions

live.srishtimanipalinstitute.in

Project Experience

DESIGNED AN APP THAT HELPS SMALL CAFE'S AND STREET VENDORS REDUCE THEIR FOOD WASTE

Conducted interviews with small café owners and street vendors in Bengaluru to understand how they manage their raw material purchases and estimate the week's customer footfall

Know more

USER TESTING, HEURISTIC EVALUATION AND REDESIGN OF KSRTC WEBSITE

Observed key problems that users were facing that were stopping them from completing their transactions.
Understood what the slightest change in expressions means while testing with users

Know about Heuristic evaluation   Know about testing and redesign

USER TESTING AND HEURISTIC EVALUATION ON COURSERA WEBSITE

Completed task based user testing and heuristic evaluation on the Coursera website and understood key pain points of users while doing those tasks.
